Projects

Personal Portfolio website

Using html CSS and JavaScript

- Develop a dynamic Personal Portfolio Website using **HTML5**, **CSS3**, and **JavaScript**.
- Showcase my skills, projects, and achievements with an engaging and responsive design.
- Include interactive elements, an "About Me" section, project galleries, and contact information.
- Establish a professional online presence for networking and opportunities.
- Deployment using **netlify**

To-Do List

Using HTML CSS and JavaScript

- Create a dynamic and intuitive to-do list web application using a combination of **HTML5**, **CSS3**, and **JavaScript**.
- Enable users to effortlessly add, edit, and delete tasks on the list
- Develop a responsive user interface that adapts seamlessly to various screen sizes, from desktops to mobile devices.
- Allow users to assign priority levels to tasks, visually distinguishing urgent tasks.
- Utilize JavaScript to enable local storage, ensuring task data persistence even after browser sessions.
